Hi Anthony,

This is a heads-up about a letter (attached) EPA and NOAA will be issuing probably late this week regarding Oregon's Mid-Coast TMDL. The letter covers an assessment EPA and NOAA conducted of OR's progress on the TMDL as a requirement of the OR CZARA Settlement Agreement. I will share a desk statement and communication strategy with you when we complete it later today. The bottom-line is that OR is substantially behind schedule and as a result EPA and NOAA did not have the information to make an assessment other than to identify the missing work.

thanks,

David
